IMPROVED CRUSHING MACHINE.

C. H. GOODMAN'S

Latest Improvement in

MACHINERY FOR CRUSHING, GRINDING, AND TRITURATING

Stone, Minerals, Pyrites, and Ores of every kind (dry or wet), Granite, Flint, Concrete, Potters' Rough Stuff, Cement, Chemicals, &c.,

Also for Washing and Separating Metals from Ores, and Amalgamating Gold from Quartz.

This apparatus, from its many advantageous qualities, viz., Simplicity, Efficiency, and Cheapness, combined with Superabundant Strength, is rendered equal to the roughest work, likewise being comparatively light and easy of transit. The machine stands alone and UNRIVALLED IN THE WORLD.

If the material is no required to be reduced finer than rough sand, or fine gravel, it may be worked or purched without the Triturator, the same only being used in the production of fine powder. Likewise, the washing or amalgamating dish will only be needed when ores and quartz are in question.

The importance attached to this Machine is, that it is not applicable to one object only.—Its advantages may be summed up thus:—

1st.—The crusher consists of a horizontal ram, mounted loosely on an eccentric, by means of which a crushing and grinding movement is attained.

2nd—The material is reduced to its required size by simply setting the fixed face.

3rd—The two acting faces are moveable, and can be replaced in a few minutes at a trifling cost, which does not amount to one hundredth part the cost and trouble of rollers.

4th—Where the triturator is required, the material passes over a vibrating sieve (as seen in the illustration), the fine falling through, and the coarse passing into the die hopper, where it becomes reduced to powder.

5th—Where washing and amalgamating powers are required, the finely ground quartz is discharged into the dish containing quicksilver, wherein water is constantly poured, the whole being stirred by means of routers, and the mud and tailings pass off into a sluice attached to the lip of the dish, intended to catch what precious metal may have escaped amalgamation.

It may also be necessary to state the Triturating discs are constructed in such a way as to admit of long wear, and will work to the last without the slightest injury to the quality or fineness of the material.

THE MACHINES ARE MADE IN THREE SIZES.

No. 1. Crushing 20 tons per day of ten hours, Road metal
No. 2. " 40 " " " Producing 4 tons of Quartz per 10 hours,
No. 3. Crushing 60 tons per day of ten hours Producing 8 tons of Quartz per 10 hours.

Extract from "THE ENGINEER," May 12, 1871, page 320

"The ram-head works against a fixed toothed face, and, if there were nothing more, stones put into the hopper would be simply crushed between the two—much as in Blake's machine. But here the similarity ends. It has been found that what we may best term a chewing action materially facilitates the breakage of the stones, and this chewing action is obtained by mounting the ram-head on the strap-end or handle on an eccentric close to the head. The motion attained by the use of this eccentric produces the precise effect required very efficiently. All the arrangements are very simple and mechanical, and the machine appears to have nothing about it to get out of order. We were much pleased with it."

Esquimalt Graving Dock.

THE GOVERNMENT OF BRITISH Columbia are prepared to receive Tenders for the construction of a Graving Dock, at the Naval Station, Esquimalt Harbor, under the guarantee provided in the Twelfth Section of the Terms of Union of this Province with the Dominion of Canada, with Section 5 in the following words:—

"The Dominion Government shall guarantee the interest for ten years from the date of the completion of the work, at the rate of five per cent. per annum, on such sums, not exceeding £100,000 sterling, as may be required for the construction of a first class Graving Dock at Esquimalt."

The Dock to be of masonry, and of not less than the following dimensions:—

Length on floor 320 feet,
Do over all 400 feet,
Width between copings 90 feet,
Do on floor 45 feet,
Do of entrance 63 feet,

to afford a depth of water on the sill of not less than 26½ feet at high water springs, and to be substantially constructed to the approval of Government, upon a site to be provided by the person whose tender may be accepted.

Further particulars as to site, borings, &c., may be obtained from T. A. BURKLEY, Esq., Chief Engineer to Government, upon application in writing to the Chief Commissioner of Lands and Works.

Tenders must specify the time within which the Dock will be completed, and must be accompanied by drawings and descriptions showing exact dimensions, materials, and mode of construction of proposed Dock.

Tenders are to be sealed, superscribed "Tender for Esquimalt Graving Dock," addressed to the Chief Commissioner of Lands and Works, Victoria, British Columbia, and delivered at his Office before noon of the 15th day of November, 1872.

Persons who may consider the above guarantee to be insufficient, are at liberty to tender on the basis of such supplemental guarantee by the Provincial Government, or upon such other financial inducements, as they may suggest.

The Government do not bind themselves to accept the lowest or any tender.

Each tender must be accompanied by a Bond from the Contractor, and two sufficient sureties, for the payment of £10,000 to Her Majesty, her heirs and successors, conditioned upon the due fulfilment of the tender which it accompanies, provided it be accepted within three months from the said 15th November.

By Command.

The Daily Standard.

Saturday, May 4, 1872.

The Board of Education.

The Provincial Secretary after having for weeks discharged the duties of hawker and peddler to the Government, for the purpose of filling up the Board of Education created by the School Act passed during the late session of the Legislature, has at last succeeded in finding six gentlemen who take sufficient interest in educational affairs to accept seats at the Board. There is a Municipal By-Law in force in this city which requires that every person engaged in hawking and peddling shall contribute to the city treasury the sum of ten dollars, payable half yearly, for a license, and if the Municipal Tax Collector has not yet collected the tax from the hon. the Provincial Secretary, he should take an early opportunity to do so. But apart altogether from that matter, every friend of popular education in the country will be glad to learn that the Board is now complete, and that the School Act will at once go into practical operation. That it should have taken the Provincial Secretary a whole month tramping hither and thither, first begging of one man then coaxing another to act upon the Board of Education, before succeeding in getting the number required by law, augurs not the most cheering prospects as regards the future success of the new school system. The course which the Government has pursued with reference to this matter looks very much as if the intention was, if possible, to bring the system into contempt, and thus mar, if not destroy, its usefulness. There was not the slightest necessity in the world for the delay and trouble which has taken place in organizing the Education Board, and had the Government not resolved that none but a certain class should occupy seats at that Board, the requisite number of gentlemen could have been obtained in less than a week after the School Bill became law. However, that difficulty has been overcome, and six gentlemen of acknowledged ability and fitness for the position now constitute the Education Board. That they have a delicate and difficult duty to perform in organizing the new school system and getting the machinery into successful operation, those will most readily admit who have had experience in such matters. We have no doubt the gentlemen who compose the Board will prove themselves equal to the task, and, aided by the advice and practical experience of the Superintendent of Education, we are not without hope that the Free School system of this Province will meet the approval and receive the support of all ranks and conditions of people. They may expect that every act they perform will be closely scrutinized; nor need they be surprised if their best intentions are sometimes misunderstood and their most conscientious efforts misrepresented. The present school system has its enemies, who will not be slow to take advantage of any and every act of the Education Board to prejudice the public mind against it, weaken its influence, and sap the very foundation of its existence. The non-sectarian element of the system is hateful to some, who recognize in a purely secular form of education what they are pleased to term a godless system of instruction, even more prejudicial to the rising generation than no instruction whatever. Those who favor the non-sectarian system, on the ground that in a community composed of many sects holding diverse views on questions of religious faith it is inexpedient to teach any form of religion in the Common Schools, are equally as jealous as the other class to which we have alluded, and would just as readily seek to overthrow the system were an attempt made to introduce sectarian teaching as a part of the routine of studies. The latter class do not ignore the importance of imparting sound religious instruction to the rising generation, but in view of the fact that it is impossible to agree upon any one system that would be acceptable to all they contend that it is better to omit religious teaching altogether in public schools, leaving it to parents, Sabbath-school teachers, and the pastors of the respective churches to impart that kind of religious instruction to their children which they deem best. We know what endless trouble and bickerings have arisen in Canada and elsewhere in a vain endeavor to hit upon some scheme as a basis of public instruction that would operate as a kind of compromise between the various sects and admit of a measure of religious teaching being imparted to the children in public schools; but it proved an utter failure, and was finally relinquished altogether in favor of the purely non-sectarian system. Cognizant as we were of the extreme sensitiveness of the public on this point, and with a view to avoid anything that could be construed into even a semblance of sectarianism either in the composition of the Board of Education or the instruction given in the schools, we urged upon the Government the propriety, in selecting a Board of Education, of having each religious denomination in the place, Jews and Gentiles, fairly represented, and in that way disarm suspicion and inspire a feeling of confidence among all parties that so far, at least, as the Government were concerned, there existed no feeling of preference for one religious denomination more than another in reference to school matters. It is therefore with a feeling of disappointment at least we learn that with one single exception the Board of Education is composed wholly of one religious denomination, and that neither Roman Catholics, Methodists nor Jews are represented there, and that the Presbyterians are in a minority of one to five. To pack the Board in that way says very little either for the wisdom or tact of the Government, as they will most likely find out hereafter. As for the gentlemen who have accepted the appointments, we have not a word to say against any one of them. We have the utmost confidence in their integrity as well as in their ability, and believe they will enter upon the discharge of their important duties with an earnest desire to carry out the law in its integrity and to lay a solid foundation for the education of the rising generation. If the system should give that satisfaction which we hope for, the Board of Education will be entitled to all the credit, for the Government has adopted a most effectual method of making it unpopular.

A CARD.

EDITOR STANDARD:—Sir, I wish to state through your columns the usually manner in which foreign ship masters are treated by shipping Agents in the Port of Port Townsend: I brought my ship the "George" (a German vessel) from Unsanty to Port Townsend to obtain a crew. I placed the ship's Articles in the hands of Sloane, Newton & Magurr, of that place, and instructed them to ship for me fourteen able seamen, at the rate of $40 per month for the voyage to Hong-Kong and back to the United States for which I paid them the usual Commission of $5 per man and also a bonus of $20; these parties engaged eleven men for me, and put them on board the ship; Mr. Magurr, the Shipping Master, coming on board a few minutes before we sailed with the articles, which I put among the ship's Papers; having to ship three more hands I had to come over to this port to ship them; on getting out the Articles, to my astonishment I found the following clause inserted entirely without my knowledge or consent: "That if the crew were discharged at Hong-Kong they should be allowed three months extra pay," a thing I venture to say unheard of before. I merely write this to warn other ship masters from being put to the expense and annoyance at that port that I have been put to. I would also advise Shipmasters wishing to draw on their owners, they would do well to call on Messrs. Rothschild & Co.

(Signed) WILLIAM BEHRENS,

ma4 Commander ship "Georges."

Qualification and Registration of Voters Act, 1871.

Electoral Districts of Victoria, Esquimalt and Cowichan, Respectively.

NOTICE IS HEREBY GIVEN, that all persons entitled to vote in the Election of a Member or Members of the Electoral District of Victoria, the Electoral District of Esquimalt, or the Electoral District of Cowichan, in respect of freehold or leasehold property, or in respect of any other qualification conferring the right to vote in either of the aforesaid Electoral Districts who are not upon the Register of Voters now in force, or being upon the Register, shall claim in respect of being a lodger, or as paying for board and lodging, or in respect of a Free Miner's Certificate, or shall not retain the same qualification, or continue in the same place of abode as described in such Register, and who are desirous to have their names inserted in such Register of Voters about to be made for the aforesaid Electoral Districts are hereby required to give or send to the undermentioned Collectors of the various Polling Divisions of the aforesaid Electoral Districts, on or before the 10th day of June in this year, a notice in writing, by them signed, in which their name and surname at full length, their place of abode, and the particulars of their qualification, must be legibly written, according to the Form of Notice of Claim which can be obtained from the Collectors, gratis, or to the like effect.

Persons claiming are also required to annex a declaration thereto, according to the Form of Declaration which may be obtained from the Collectors, gratis, with; any person making such declaration knowing any statement contained therein to be false, will be guilty of a misdemeanor, and will be liable to be prosecuted accordingly.

Persons already on the Register of Voters, who have changed their residence, or whose qualification has been altered since the last registration, are required to send in their claims, and all persons who are on the Register of Voters, in respect of claims as lodgers for payment of board and lodging, and holders of Free Miner's certificates, are required to send in fresh claims; and all such persons omitting to give or send such Notice and Declaration will not be included in the List of Voters about to be made out by the various Collectors.

COLLECTORS FOR THE ELECTORAL DISTRICT OF VICTORIA:

A la Societe des Dames Françaises de Victoria, B. C., Pour la delivrance de la Patrie.

Madame la Presidente.

MESDAMES:—A la vue des maux sans nombre qui ont accable notre malheureuse Patrie; et qui pesent encore si lourdement sur Elle; un coeur de Femme s'est dit. "Je sauverai la France!" A cette voix du coeur des millions de voix ont repondu. Et ici meme si loin de la Patrie, cette voix a ete entendue; et vous vous etes empressees, Mesdames, de suivre un si noble exemple, en fondant la Societe. "Des Dames Francaises de Victoria."

Grace a vos generaux efforts une premiere mise de fonds a ete reunie, chacun a compris votre noble mission en se faisant un bonheur de s'y associer. Desireux a mon tour d'ajouter mon obole au tresor de la Patrie, je viens vous prier d'accepter, le benefice que pourra realiser une fete que j'ai l'intention de donner avec l'assistance des mes compatriotes, le 4 mai prochain, a mon nouvel Hotel.

Dans l'espoir, Mesdames, que vous accepterez mon offrande et humble.

Daignez agreer l'assurance de profond respect avec lequel jai l'honneur d'etre Mesdames

Votre tres humble serviteur

S. DRIARD.

Driard House, View street, Victoria, B. C., April 14th, 1872.

A Monsieur S. Driard, Proprietaire de Driard House.

MONSIEUR:—Au nom de la Societe des Dames Françaises organisee a Victoria pour la delivrance de la Patrie, je vous remercie pour votre aimable proposition de devouer le benefice d'une fete que vous vous proposez de donner, avec l'assistance de vos compatriotes le 4 mai a votre nouvel Hotel, pour contribuer a cette auvre patriotique.

Ces Dames acceptent avec reconnaissance votre offre generuse, et elles apprecient votre devouement et votre strictisme.

Veuillez agreer Monsieur, l'assurance de ma consideration distinguee

The Bazaar—Third Day.

The doors of the Bazaar were thrown open at 6 o'clock last evening, for the purpose of selling at auction the articles remaining from previous days, and raffling the different lists. At 7 o'clock Mr. J. P. Davies commenced the auction; the articles sold realized the handsome sum of $352. Several gentlemen who bought largely presented their purchases to the Bazaar, to be resold, which helped to materially swell the proceeds of the auction. No. 26, held by Miss Stott, was the winner of the principal article raffled—the large chair. The embroidery King David was won by Mrs Farron; there were four persons who threw 40, and in throwing off the ties, Mrs. Farron threw 41, and which took the prize. In the general raffle, Mr. Fell threw the highest number, 47, winning the first prize; Mrs. Denny took the second, with 44; Mr. Piper the 3d, with 43; Mr. Partridge the 4th, with 42; Mrs. Bonwick the 5th, with 42; Mrs. Bagnall the 6th, with 41; Capt Mist 7th, with 41; Miss Foreman 8th, with 41; and Dr. Helmcken the 9th, with 40. Several smaller raffles took place during the evening, amongst which were a model of a full rigged ship, won by Mr. McNiff. A large wax doll won by Miss Josephine Duberger; a scarlet cushion and a framed specimen of penmanship were both won by Mr. C. Lombard. The general raffle, in which there were over 200 chances, did not terminate until nearly midnight, when the lucky winners took their prizes and went to their homes, pretty well tired out by their three days' excitement.

CUSTOM HOUSE PRACTICE.—It will be recollected that when Mike Drew was Collector at Port Townsend, the schooner Anna Beck was seized and fined a thousand dollars for violating the revenue laws, by not reporting at the custom house within twenty four hours after her arrival in that port. The captain of the schooner was sailing under a fishing license, which he supposed was sufficient to permit him to lie in any port, as well as to go in and out, without reporting to the custom house. Mr. Boscowitz, the owner of the schooner, took an appeal to the Court and the suit is still pending. The Collector knew that the judgement was certain, but had reason to believe that the violation of the law being merely technical and committed through ignorance, the Secretary of the Interior would remit the fine whenever judgment was rendered. To guard against this contingency, whereby he would lose his half of the forfeiture, he reported the fine paid, and it accordingly was passed into the public treasury from which it can only be drawn by act of Congress, expecting to reimburse himself and clear five hundred dollars by the operation, when judgement was obtained. When Leander Holmes went out of office he made a report to the department of the U. S. of the cases pending, among which was that of the Anna Beck. On Saturday last Mr. Wingard received an order by telegraph from the department to discontinue that suit, as the fine had been paid. Thus Mike, by his sharp practice, is out five hundred dollars, and Boscowitz has a legal claim against him for one thousand dollars, his receipt for that sum from Boscowitz being among the official records.—*Puget Sound Courier.*

It has lately been shown (says the *Builder*) that 14,247 miles of railways are now being worked in the United Kingdom, on which have been expended no less a sum than £500,000,000, which is five times the amount of the annual value of all the real property of Great Britain, and two thirds of the National Debt. The gross net annual revenue of the railways in the country, after deducting all working expenses, exceeds £25,000,000 sterling, more than the total revenue, from all sources, of Belgium, Holland, Portugal, Denmark, Sweeden, and Norway. The companies have in their direct employment more than 100,000 officers and servants. The value of the rolling stock exceeds £30,000,000.

FOR THE MAINLAND.—The steamer Enterprise, Capt. Swanson, left at 10:30 o'clock yesterday morning, for New Westminster, with a large number of passengers, including a detachment of fifteen men of the Canadian Pacific survey party under charge of District Engineer McLennan and Mr. H. F. Torrest C. E.; also a large freight, 180 tons, 7 horses, and the boilers and machinery for Mr. Bates' flour mill. Among the passengers we observed Messrs. Brodie, McCres, Hoffman, Barnard, Black, James Tolmie, Dr. Tolmie, T. B. Humphreys, M. P. P., D. Oppenheimer, R. Waitt McMillan, Dr. Trimble, M. P. P., Colonel Lane, Blum, Barnes and W. B. Wilson.

THE LANE KURTZ ENTERPRISE.—A dispatch dated May 2nd was received yesterday morning by Colonel Lane from Mr. R. H Brown Superintendent of the Lane Kurtz Co, to the effect: "Drift in thirty-four feet; less water and passing it. The general opinion is that we are under the channel and deep enough." Colonel Lane left in the Enterprise yesterday for Cariboo, and will apply for a lease of the Lightning Creek Meadows for San Francisco capitalists.

THE telegraph system of England, under the working of the postoffice, is assuming gigantic proportions. An estimate has just been made for the year ending the 31st of March last, which shows a revenue of fully a million sterling, and a total number of messages of 12,250,000. The actual number of messages during 1871 was 9,308,045, an increase of 2,000,000 over 1870; while the number of offices had increased from 1,058 to 3,291.

THE original of the title "The Thunderer," by which the London *Times* is known, was from a writer beginning a leading article with the phrase, "We thundered forth the other day," etc. Some of the *Times'* contemporaries, in referring to this expression, called the *Times* "The Thunderer," and though nearly fifty years have elapsed the title still clings to it.

THE Puget Sound steamer North Pacific will be laid up for a short period after the next trip,—to be painted; the steamer Alida will take her place on the Sound, and the Isabel will connect with her at Port Townsend for this port.

QUALIFICATION AND REGISTRATION OF VOTERS.—A notice appears in this day's issue, which is of interest to the voters of the Electoral districts of Victoria, Esquimalt and Cowichan, respectively; we direct attention thereto.

FOR HONG KONG.—Welch, Gilbert & Co. have the ship Georges up for Hong Kong; she has good accommodation for passengers.

FOR A CRUISE.—H. M. Boxer will sail this morning on a cruise to Cowichan and Nanaimo.

THE DESTRUCTION OF THE EARTH.—An exchange writes: We do not know when we have read a more comfortable or less agitating prediction than this: Alphonse Adhemar declares that the earth is covered by a deluge once in 10,500 years. He reasons it out in a way which forcibly impresses us, albeit we do not in the least comprehend it. All we know is that "a gigantic polar glacier, by its disruption, overwhelms a hemisphere;" and to make matters complete, the world is simultaneously overwhelmed at each end. But, as this is not to happen until A D 7353, we find it impossible to get up the least excitement on the subject. Another authority says: A priest of Toulouse has published a book in which he informs the world that the final extinction of all mundane things will come in the year 1921, at three minutes, thirty-one and thirteen-seventeenths seconds past 7 o'clock a. m., on the 13th of July. We are very glad he is so exact about the matter, otherwise we should be inclined to distrust his prediction, having been several times disappointed on the same subject. But as he has brought it down to so fine a point, of course there can be no doubt about it. We should be thankful for so long a notice, and there will be no excuse if any one is not ready when the time comes.

THE "DRIARD OPENING."—The next sensation, after the Bazaar, and the Japanese excitement, is the grand opening, to-day, of the Driard House. The entertainment in connection with the grand opening of the hotel, will be given by the French inhabitants of the city and vicinity, in aid of the French war fund, and we expect that some money will be left from the above, to appropriate to this object. The following is the programme: Meals will be served between the hours of 7 a. m., and 7 p. m. Meals one dollar. Ice creams and refreshments. Private rooms for families. The Victoria Brass Band will play at intervals in the afternoon. In the evening, commencing at 8 o'clock, there will be a ball and concert, illuminations, fireworks and ascent of a balloon. Admission one dollar. We hope the public generally, will come out nobly, and assist those who have taken such a cause in hand. The French residents of the Province are always to the fore in rendering aid to any good object which calls for their sympathy, here and elsewhere. The dollar ticket will admit visitors either to the dinner table during the day, or to the ball and concert in the evening.

AGRICULTURAL.—We are credibly informed that the five hundred dollars voted by the Legislature for the encouragement of Agriculture is to form the government subscription to the fund we hope to see raised for bringing about a creditable Agricultural Exhibition this fall in Victoria. Parties interested should bestir themselves, and there should be a monster attendance at the meeting of the Farmers' Club this day month, first Saturday in June, by which period potato planting and turnip sowing should be very nearly completed. In spite of changed tariff and heavy duty on Agricultural implements and the timber needed for their construction, let the farmers strive to make the first show after Confederation one to redound to the credit of this part of the province.

THE ancient city of Antioch, Syria, 1,500 of whose inhabitants were destroyed recently by an earthquake, has been demolished before, no less than five times by similar visitations. In the year 537 the city was destroyed by an earthquake, and 30,000 lives were lost. In 1098 the city was captured by the Crusaders, and it has since sunk gradually into a state of insignificance. An earthquake in 1832 completed a demolition of the walls of the old city. At the time of the recent earthquake Antioch or Antakia, contained about 6,000 inhabitants, so that the number destroyed was nearly one-third of the whole population. It is probable that this last visitation will drive the miserable remnant of Arabs and Turcomans from the site.

THE Vancouver *Register* learns that "the case of William B. Bird, indicted for the murder of Lieut. Cowan at Sitka in February, 1870, was again continued for another six months upon the application of the U. S. Attorney and on the ground of the absence of material witnesses for the prosecution. Bird has been already in confinement twenty-six months. His physician made a showing that he was threatened with phthisic and was suffering from other chronic disorders, on account of confinement in a dark cell and lack of exercise, in consequence of which the Court ordered the Marshal to allow him exercise in the open air each day not exceeding one hour."

THE INTERNATIONAL CRICKET MATCH.—The following is a copy of a telegram received yesterday by Messrs. Drake and Curtis from Mr. McDougall the Secretary of the San Francisco cricket club: "Every probability of our leaving on the 15th May. Meeting last night, all unanimous, but team not quite completely. Final meeting on Friday night, when I hope to telegraph you in the affirmative."

THE Japanese represented, as our friends over the line would say, last evening, giving entire satisfaction. The matinee to-day which will no doubt be largely attended, and by those who can't conveniently be present in the evening, together with the performance which commences at 8 p. m., will, we understand, close the engagement of the Japs.

MR. TODD member for Kootenay, and Mr John Telford started yesterday morning on a prospecting expedition through the Island. They intend to prospect the country between Seven River and the Seymour range of mountains.

MR POPE HENNESSY, Governor of the Bahamas, has been appointed Provisional Governor of the West African settlements, to which position it was at one time thought Mr. Musgrave would be appointed.

POLICE COURT.—George Hughes on remand from the 26th ult. awaiting sentence, was yesterday given six months for supplying Indians with liquor.

HE California sailed from Portland on Thursday evening; among the passengers is the Waldron Troupe—names in telegraph column.

DISCOVERY.—A new 3 feet wide seam of coal was discovered by the miners in the Newcastle pit, in boring through the roof of the same.

AN interesting article, relative to Mr. Manood's survey party, &c, is published in another column of to-day's STANDARD.

MISS S. REDFERN has been appointed organist to St. John's Church, in the place of Mr. Berkeley.

FOR THE SOUND.—The steamer North Pacific, Captain Starr, sailed at 5 a. m., yesterday for Olympia and waypORTS.

WANTED.—Apprentices wanted for the dressmaking business. Apply to Mrs. T. A. Williamson, Kane street.

THE STEAMER.—Private advices from San Francisco announce the Prince Alfred will leave on Monday the 6th.

By Electric Telegraph.

SPECIAL TO THE DAILY STANDARD

LAST NIGHT'S DESPATCHES.

The Claims will be Amicably Settled.

EASTERN STATES.

NEW YORK, May 2—Three brick buildings in course of construction in Brooklyn fell today, burying several workmen, and all are supposed to be killed.

It is rumored the Government has accepted the resignation of Judge Cardoza, and has appointed a successor.

ALBANY, N Y., May 2—The Assembly has adopted resolutions impeaching Judge Barnard.

CINCINNATI, May 2—The Convention reassembled at 3 o'clock; the hall was densely crowded. The Committee on permanent organization reported Schurz President, with a Vice-President from each State. Among the Vice-Presidents are Wm. Rockerby, of California; Geo G. Lyon, Nevada; J. W. Johnston, Oregon. The Committee on credentials reported against the recognition of Laura De Force Gordon as a delegate, but tendered her and other ladies the courtesies of the hall. The Convention resolved not to ballot for candidates until the platform is adopted. The Convention adjourned till 7:30 p m.

The Convention came together promptly at half-past seven o'clock; the attendance was greater than in the afternoon; every available inch of space was occupied, there being about 2,000 ladies present. Promptly at the hour, Senator Schurz called the Convention to order, saying the Committee on resolutions would not be able to report the result of their labors to-night, in consequence of the large number of papers laid before them. It was suggested that time be occupied in making speeches. The motion to adjourn till 9 o'clock a m on Friday, was lost. Henderson, of Indiana, moved to suspend the rules and take up the tariff resolutions and act on them finally. The Convention was thrown into partial confusion by a violent discussion on the question. When the confusion subsided, the motion to suspend the rules to admit the consideration of the tariff question was submitted, and the vote by States was adopted, 460 to 248—two votes more than required to make two-thirds majority. The chairman announced the tariff resolution had been adopted by the Committee on resolutions, and suggested the propriety of delaying further action until the Committee reported.

Owing to the overwhelming vote in the Convention suspending the rules, indicating the unmistakeable sentiment of the majority to favor Greeley's platform, it is now believed—indeed, one of the most prominent free traders says that if the morning resolution be modified to meet the views of the majority of the Convention, as expressed tonight, this vote is claimed to show the strength of Greeley in the Convention. The South is voting solid for it; New England and New York nearly so; Ohio, Indiana, and Illinois are about equally divided.

BOSTON, May 2—The Franconia Iron Company's Works were burned to-day; loss, $100,000, insurance $50,000; 150 workmen were thrown out of employment.

EUROPE.

LONDON, May 2—In the House of Lords tonight, Lord Granville in reply to the inquiry from Lord Derby, said the reply to the American Government on the subject of the Alabama Claims had been received and was considered in a Cabinet meeting to-day. It gave grounds for the hope of the settlement of the matter satisfactorily to both countries. He begged the House not to ask for papers at present.

Gladstone made a similar statement in the House of Commons and responded to Disraeli in his inquiries.

News is received of the foundering of the schooner Brooks; all hands lost.

The Empress Augusta has arrived at Windsor Castle.

MADRID, May 2—It is reported that the Carlist leader, Rodda, has fled to France.

CALIFORNIA.

SAN FRANCISCO, May 3d—Contrary to general expectations the proposition of the Committee of One Hundred to the St. Louis delegation for the construction of the western end of the 35th parallel road, was not considered satisfactory by the latter, and a counter proposition will be made to-day.

Governor Stanford has notified the Committee of One Hundred that he is in town and prepared to receive any communication on the subject of the terminus that they may have to make. A conference will probably be brought about.

The Episcopal Convention, assisted by the various parishes in the diocese, have raised a fund sufficient to give the Bishop a salary of $6,000 per annum, and $600 for the Convention Fund.

Weather much cooler, with a strong west wind; fog coming in from the westward.

Mrs. Nathan was severely injured by being knocked down by a runaway horse last night It is believed she is not fatally hurt.

Gold, 112¾; bonds, 112½@115¼; other quotations unchanged.

OREGON.

PORTLAND, May 3—The California sailed for Victoria last evening, carrying the following passengers: J. H. Roberts, wife and infant, C. B. Talbot, E Evans, Wm. Barrows, Mr. Cleaves, Mr. Ross, Miss Minnie Pixley, Miss Jane Bennett, J. H. Carry and wif, Mr. Beston, Mr. Kyse, Mr Hadden, A. E Armstrong, Miss A. Hilader, Miss Williams, H H Richmond, R. Smith, H. Hide, W. Barry, Mr Bray, E. Fulford and wife, G. B. Waldron and wife Mrs. Bird and daughter, Mr, Clinton, Mr. Foster J. C. Kellogg, Mr. Barnovich, and ten others.

THE RUMORED ALLIANCE between Prussia, Russia and Italy, is denied by the official organ of Victor Emanuel, which declares the appointment of M. Fournier as French Minister to the Court of Victor Emanuel has given great satisfaction to the Liberal party in France. The *Liberte* states that M Fournier's mission is to dissipate all misunderstanding between France and Italy, and maintain friendly relations between the two countries. Italy seems to be the chosen field of diplomatic deception at this time. The late visits of General Von Moltke and Prince Charles to Italy are full of meaning. These men do not traverse the country as dreamy knight errants, nor are their lances leveled at windmills. They are stern soldiers and mean business. That business was a union with Italy, as against France.

COLOSSAL BRIDGES.—In regard to bridge-building, we live in a remarkable period. Cincinnatti has now the greatest suspension bridge completed, which will be only surpassed by those over the East river, between New York and Brooklyn. Louisville has the great Ohio railroad bridge, over a mile in length, with spans 400 feet long, and costing one and a half million of dollars. St. Louis is completing its colossal bridge over the father of waters, the combined Mississippi and Missouri rivers; while in Buffalo the iron international bridge, over the Niagara river, is progressing fairly, the fourth caisson being sunk in 42 feet of water, while the piers, each 20 feet of water, are being connected by temporary scaffolding. It will rest on seven piers, with iron arches, and, with embankment, will be over half a mile long.

THE Gussie Telfair passed up the Straits yesterday, on route to Sitka.

Canadian Pacific Railway.

[Amherst (N. S.) Gazette.]

It is known to most of our readers that since the early part of last summer surveying parties have been engaged on both sides of the Rocky Mountains in exploring a route for a railway from ocean to ocean through British territory. We understand that letters, giving a vivid description of winter life amid "the Rocks" have lately been received from an Amherst young man—Mr. James Dickey, Assistant Engineer in party R operating between Yellowhead Pass and the Cariboo gold region in British Columbia—a distance of some 200 miles never before traversed by a white man, nor, it is believed by one of the aborigines who as a rule follow the streams. Between the Pacific Coast near Vancouver I. and the great backbone of the continent, the Rocky Mountains, lies the Cascade range, so called from its numerous volcanoes and occasional glaciers so rare in North America.

In making their way easterly from Cariboo this party encountered snow from 5th October, and later in the month were fairly caught in the mountains and "snowed up," where in the last days of November they still were. All the pack animals strong enough to travel were sent back on the trail to Cariboo. The remainder, not being able from the severity of the weather to get at the bunch grass on which stock usually wintered in the valleys, finally succumbed.

At the latest advices the party were awaiting the freezing of the rapids on the upper Fraser to enable them to move their supplies by handsleds on the ice some 50 miles or more to Tete Jaune Cache. Meanwhile the thermometer sunk to 26° and 28° below zero, and this in the month of November. People who "live at home at ease" can have but a faint conception of the effect of such a temperature upon others sheltered only by a canvass tent resting upon three feet of snow. Log huts were being built for greater protection, and the steadiness of the frost may be judged from the fact that, in the absence of glass, plates of ice were being used to admit light. Mr. Mahood, the chief of the party, in his anxiety to carry out a pre-arranged plan for meeting Mr. McLellan who was himself unable to reach Tete Jaune Cache, had a narrow escape from death by starvation. The etymology of this name is somewhat curious. Lying on a bend of the Fraser, where its waters issue from the Rocky Mountains, it was in times past used as a place for hiding or cacheing furs by an Indian, who had the marked peculiarity of yellow hair. Hence the name Tete Jaune Cache or Yellowhead Pass.

While speaking of this most interesting part of the Dominion which occupied the same relation in the west as Nova Scotia in the east, we are reminded of a letter lately shown to us by a gentleman here, from Rev. J. B. Good, an Episcopal clergyman, formerly stationed at Pugwash. Mr. Good, fired by missionary zeal made his way some ten years ago, with a young English wife to Vancouver, where he turned his attention to the Indian tribes. Having mastered one of the dialects he followed out his missionary work from point to point among the aborigines, till he at last brought up at Lytton, a small village on the eastern branch of the Fraser, about 200 miles from Vancouver I. and, of course, on the mainland. Here quietly settled with half-a-dozen olive branches, he has already built a neat church on the commanding site overlooking a winding Fraser and the surrounding panorama of mountains. Any one desirous of learning the secret of bringing home the great truths of the Gospel to these children of the forest may be gratified by the perusal in last week's *Church Chronicle* of Mr. Good's journal of the sabbath's doings in his little church on the distant Fraser.

Returning to party R whom we left in lat. 53° 20' or 4° north of the international boundary, it is hoped that long ere this they have reached the rendezvous with McLellan's party, where, although a fortnight's travel from the habitation of a white man, they will be in safe winter quarters. Enough is probably known to confirm the opinion in Lord Milton and Cheadle's work that the direct route to Cariboo is not practicable for a Railway. It is understood that Mr. Moberly, the District Engineer favors the route by Howse pass to the southward, where the elevation is only 4000 feet above the sea.

Langley Letter.

EDITOR STANDARD:—I see that you have graced your columns with an anonymous squib in the interest of this Langley rum hole; it is a great pity that men who have lately been engaged in building a church edifice cannot find more consistent employment, than trying to break up a school because the teacher has thought it to his spiritual advantage to connect himself with a more consistent communion. In writing the former article on the evils of drunkenness, I had not the least personal ill will against this rumseller Taylor, for I pity the deluded creature—and especially his little children, who have (until I asked him to pay some arrears of school fees) attended my school. My object is to banish rum from this place, and now that there is the skeleton of a christian church at Langley, I merely wish to aid in removing any obstruction so that the true spirit may come and take possession of the dry bones. It is enough to make angels weep to see professing christians march from the sanctuary, direct to the rum hole; this low practice is a sad blot that I would like to see wiped out from a professed branch of a church, at whose altars my forefathers have worshipped, since the days of the Covenanters. It is perfectly futile for your cowardly correspondent to try to frighten me with the Superintendent of Education; I bail him with delight. He will be the teacher's protection against such cutthroats as "Langley Farmer," and other cowardly anonymous scribblers. If the Government, and the Magistrates will turn a deaf ear to the appeals for reform of this hideous vice, public opinion will remove the curse, and its cause.—

"Perish, policy, and cunning,
Perish all that fears the light,
Whether being, whither going
Trust in God and do the right."

JAMES KENNEDY.

LANGLEY, 29th April, 1872.

☞ Memory presides over the past. Fell's Coffee over the present, The first lives in a rich temple hung with glorious trophies, and lined with tombs but Fell's Coffee has but one shrine and that is every breakfast table. Its aroma walks the earth like a spirit and can be found for sale at every respectable dealer in British Columbia. Beware of spurious imitations. ly *

MARAVILLA COCOA—The *Globe* says, "Taylor Brothers' Maravilla Cocoa has achieved a thorough success, and supersedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For Invalids and Dyspeptics, we could not recommend a more agreeable or valuable beverage."

A. GILMORE, Merchant Tailor, has removed his place of business to the store adjoining the Colonial Hotel, Government street, four doors from Yates street, where he is prepared to sell, at reduced rates, Custom Made Clothing and Gents' Furnishing Goods. Also, Garments made to order, according to the Latest Styles.

SOLUBLE CHOCOLATE, made in one minute without boiling. The above article, are prepared exclusively by Taylor Brothers, the largest manufacturers in Europe, and sold in tin-lined packets only, by Storekeepers and others all over the world. Steam Mills, Brick Lane, London. Export Chicory Mills, Bruges, Belgium.

Qualification and Registration of Voters Act, 1871.

ELECTORAL DISTRICT OF VICTORIA CITY.

I HEREBY GIVE NOTICE, that all persons entitled to vote in the Election of a Member or Members of this Electoral District in respect of freehold or leasehold property, or in respect of any other qualification conferring the right to vote in this Electoral District who are not upon the Register of Voters now in force, or being upon the Register, shall claim in respect of being a lodger, or as paying for board and lodging, or in respect of a Free Miner's Certificate, or shall not retain the same qualification, or continue in the same place of abode as described in such Register, and who are desirous to have their names inserted in such Register of Voters about to be made for this Electoral District, are hereby required to give or send to me, on or before the 10th day of June in this year, a notice in writing, by them signed, in which their name and surname at full length, their place of abode, and the particulars of their qualification, must be legibly written, according to the Form of Notice of Claim I will supply or to the like effect.

Persons claiming are also required to annex a declaration thereto, according to the Form of Declaration I will supply. Any person making such declaration knowing any statement contained therein to be false, will be guilty of a misdemeanor, and will be liable to be prosecuted accordingly.

Persons already on the Register of Voters, who have changed their residence, or whose qualification has been altered since last registration, are required to send in their claims, and all persons who are on the Register of Voters, in respect of of claims as lodgers for payment of board and lodging, and holders of Free Miner's Certificates, are required to send in fresh claims; and all such persons omitting to give or send such Notice and Declaration will not be included in the List of Voters about to be made out by me.

Dated this second day of May, A. D 1872.

DR. CHING FUN—A CARD—EDITOR STANDARD:—Through the medium of your paper I want to state the very great good that has been done me by Dr. Ching Fun of this city, next door Kwong Lee & Co. For 24 years I suffered with neuralgia on the brain, which baffled the skill of three first-class American physicians. Latterly bronchitis attacked my right lung, and my eye became painfully inflamed. Despairing of ever being cured I proceeded myself as a last resort in the hands of Dr. Ching Fun, and after five months treatment I am a well man and feel that I cannot sound the eminent Chinese gentleman's praises too loudly, so that all my countrymen similarly affected may visit and find relief. Respectfully,
JOHN HENTON, of Kentucky, U. S.
Victoria, 22d Sept. 1870. se23
